

INHIGEO: Summary Report 2016–2019, updated 5 October 2020

report by INHIGEO Secretary General Marianne Klemun; update: Martina Kölbl-Ebert

Business Meeting took place once a year:

2016 in Cape Town, 2017 in Yerevan, 2018 in Mexico City, 2019 in Varese (Italy)

The 2020 business meeting was postponed together with the IGC due to the COVID-19-Pandemic.

Annual Record (AR) was edited once a year: Nr. 48 (2016), Nr. 49 (2017), Nr. 50 (2018), Nr. 51 (2019), Nr 52 (2020). The Annual Record, available on the INHIGEO website, contains full reports of INHIGEO activities in the various countries of our members, including references to their publications.

INHIGEO Circular. The quarterly “INHIGEO Circular” prepared by the Secretary General continues to be very successful with issues in March, June, September and December of each year.

The INHIGEO website www.inhigeo.com was established by Johannes Mattes in 2016. It continues to operate successfully with continual updating throughout the past years.

Documentation and Archives

Armenia: Academy of Sciences: G. Malkhasyan private archive with 3000 cards was transferred to the Academy, bibliography of members between 1968-2003 (2016), Database of Geologist who worked about Armenia; Documentation: Khomizuri G., Terror against geologists and miners in USSR (1917-1988). 2019. 1260 pp.

Bulgaria: Collected data about 76 Russian Geologists who worked in Bulgaria

Czech Republic: Photographic Collection of portraits of significant Czech and world personalities of geological sciences, Czech Geological Survey, Prague, 2017; Archival processing of texts, maps and photographs of Josef Sekyra, first Czech who visited the southern pole, Czech Geological Survey, Prague, 2017; New Kozák Collection, private Collection with 2900 pre-photographic colitaire prints in Prague, 2017; Professor Radim Kettners (1891-1967) Collection with 438 photographs were scanned, 2018.

France: Analytical Bibliography of Geology of Algeria

Germany: Bibliography of Geosciences in Saxony

Italy: Electronic inventory of Vallisneri's Correspondence (in connection with the ISCH COST Action IS1310-Reassembling the Republic of Letters 1500-1800); History of the Petroleum Industry. A digital repository for historical resources on the early oil industry

New Zealand: Catalogue of nearly 10.000 plans of mines (listed and scanned) in 2017, 2018

Russia: Information System History of Geology and Mining (since 2010); in 2017: 715 persons, 615 documents, 1060 photographs); Digital Library Scientific Heritage of Russia, Russian Academy of Science, 2016

USA: INHIGEO Virtual Bibliography Project on behalf of the Commission (since 2012), Digital Archive for INHIGEO, Oklahoma, INHIGEO related documents; Digitized Books see AR 50 (Annual Record), page 161; The University of Oklahoma History of Science Collections has established a new archive for the History of Geology. The purpose of this archive is to preserve and make available the papers of historians of geology. The initial collections at launch include papers of the following historians: Martin Rudwick, Hugh Torrens, Kenneth L. Taylor, Léo Laporte, Alexander Ospovat, and David Kitts. Additional collections will be solicited. The University offers short-term fellowships to cover travel and lodging to use the archives.

Uzbekistan: Catalogue of faults of the Middle, Southern Tien Shan and adjacent territories (806 names of researches), 2016
